

Contents

Introduction.....	1	Before you start.....	71
Is this book for you?	1	Setting up	74
What software & hardware are covered?	1	Setting the stroke width for kerf.....	75
The learning journey.....	2	Single lines to cuttable object.....	76
Installing Inkscape	2	Text design options for laser cutting.....	82
Chapter 1: Understanding Laser Cutting	3	Outline buffer around an engraved object.....	87
A magnifying glass and dry leaf.....	3	Specialist objects	88
The basics	4	Press-fit challenges	94
Types of laser cutters	5	Optimisation.....	95
Smoke and mirrors.....	8	Chapter 8: Preparing to Cut	101
Laser Cutter Control Software	9	Begin at the end.....	101
What can you do with a laser cutter?.....	11	Create the Cut File	101
Materials	14	Modifying objects.....	102
Laser cutting workflow.....	16	Draw a bounding box.....	106
Chapter 2: Understanding the Vector File Format	19	Optimisation (again)	107
Vector vs bitmap	19	Export files for laser cutting.....	110
Vector basics.....	20	Preparing the materials.....	112
Chapter 3: Vector Sources	23	Chapter 9: Cutting	115
Licencing	23	Safety	115
Formats	24	Overview	116
Vecteezy.com.....	26	System check.....	117
Thingiverse.com.....	27	Inserting the materials in the cutter.....	118
Other sources	28	Importing the Cut File into the Laser Cutter Control Software.....	119
Chapter 4: Exploring Inkscape.....	29	Setting up the job.....	121
Why Inkscape?	29	Cutting and engraving.....	125
The same, but different	29	Removing cut objects from the bed	126
The overall screen.....	30	Assessing results	126
The Select & Transform tool	30	Additional techniques.....	127
Viewing objects.....	31	Troubleshooting.....	131
Tool Controls Bar.....	33	Chapter 10: Finishing.....	133
Dock and Dialogs.....	34	Removing scorch marks and soot.....	133
Guides.....	35	Press fit assembly.....	133
Chapter 5: Working with Basic Objects.....	37	Acrylic	134
Creating common objects	37	Chapter 11: Case studies.....	137
Modifying objects	42	Beetlebot.....	137
Chapter 6: More Advanced Inkscape.....	49	Marble maze.....	138
Working with multiple objects	49	BelsCube	140
Bounding Boxes	54	Peacock motif coaster	141
Combining objects.....	56	Word clock.....	143
Editing shapes.....	60	Christmas tree decorations.....	144
More on rounded corners.....	61	Acrylic earring holder	145
Working with Bitmaps	62	Marble machine	149
Creating segments, arcs and chords	65	Inkscape Settings for Laser Cutting.....	151
Objects to guides.....	65	Warning if you use Inkscape on another PC	151
Moving the rotation point	66	Set preferences.....	151
Text on a path	67	Change default dimensions.....	152
The Measurement tool	68	Set the default view to outline	152
Evaluating downloaded SVG files	68	DXF compatible palette.....	153
Extensions.....	70	Installing both 0.92 and 1.0	153
Chapter 7: Designing for Laser Cutting.....	71	In the next edition(s).....	155
